

UCLA Civil and Environmental Engineering

2023-2024 Career Fairs

October 31st, 2023

January 30th, 2024

Career Fairs

Registration for one or both of the CEE Career Fairs gives employers access to hundreds of top civil engineering students. Career Fair registration includes admittance to the career fair for two company representatives, one booth reservation, and a company overview in our career fair packet. The different options for registration and sponsorship are shown on the next page, with pricing for additional options shown on the Registration Form. Additionally, for government organizations, please deduct \$200 from your selected package.

Networking Nights

Depending on the desired package, employers have access to our Networking Nights, which allows them to interact with our students in a more casual setting on the evening before the Career Fairs. All companies attending either the Fall, Winter, or both Career Fairs are invited to the respective Fall or Winter Networking Nights. Companies who make donations to our Networking Nights will be advertised on our website and at the event, among other perks. For more information, please check the Networking Nights box on the Registration Form.

Information Sessions

Information Sessions provide an exclusive avenue for companies to promote their company and engage students in a more interactive setting. For more information on our Information Sessions, please click [here](#).

Sponsorships

UCLA Civil and Environmental Engineering

Sponsorship The CEE Partners program connects your organization with CEE department students, faculty, and staff for an experience tailored to your needs. Enjoy exclusive recruitment opportunities, networking opportunities with faculty and professional colleagues, advance knowledge of cutting-edge technical developments, research partnership opportunities, and opportunities to share your knowledge and experience with the next generation of engineering leaders. We welcome participation at the Bronze, Silver, Gold, and Platinum levels. For more information, please visit www.cee.ucla.edu/industrial-affiliates-program/.

ASCE at UCLA Sponsorship

ASCE at UCLA is a student-run organization that encompasses nearly the entire student body of civil engineering students at UCLA. Moreover, our chapter's success has garnered numerous awards and recognitions from ASCE nationally, such as the Region 9 Distinguished Chapter Award and the Ridgeway Award. To incorporate all of our 350 members, ASCE at UCLA hosts a vast array of engaging and hands-on events, with the largest events being our Career Fairs. This year, we are raising money to support our competition at the Pacific Southwest Symposium in Hawaii, and your sponsorship directly supports our student organization. We would not be able to meet the rigorous goals and expectations we set for ourselves without your support!

UCLA Civil and Environmental Engineering
